Summary

Frontend Developer with 10+ months of experience building responsive, production-ready web applications using React.js, Next.js, and Astro. Skilled in translating Figma designs into WCAG-accessible UIs and integrating REST APIs within Agile teams.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Next.js (App Router), Astro, Redux Toolkit, React Query, React Router
Styling & UI: Tailwind CSS, CSS Modules, Styled Components, Framer Motion, Responsive Design, WCAG Accessibility
Tools & Platforms: Git, GitHub, Vercel, Netlify, Figma, Vite, Webpack, npm, VS Code
Concepts: SSR, SSG, REST APIs, Core Web Vitals (LCP/FID/CLS), Component Architecture

Experience

Associate Software Developer Feb 2026 – May 2026
Tetr College of Business *Jalandhar, India*
- Developed responsive web interfaces from complex Figma wireframes using Astro and Tailwind CSS, achieving 100% layout precision across 15+ micro-pages.
- Built 10+ reusable UI components with Framer Motion and Swiper.js, delivering micro-interactions that enhanced interactive user engagement metrics.
- Collaborated with UI/UX teams to optimize cross-browser compatibility and responsive break points, slashing cross-device layout regressions to 0%.

Frontend Developer Intern Aug 2025 – Oct 2025
BI Hub Solution *Delhi, India*
- Engineered 8 scalable frontend application modules using React.js matching structural constraints from Swagger API blueprints.
- Integrated 20+ REST APIs with custom data orchestration logic, managing asynchronous states and form validation boundaries smoothly.
- Participated in bi-weekly Agile sprints, cooperating with cross-functional engineers to accelerate project shipping timelines by 15%.

Software Developer Intern Sep 2024 – Dec 2024
Cling Multi Solutions *Pune, India*
- Shipped core application views for a commercial real-estate platform using Next.js App Router, enhancing page load times by 20%.
- Converted 15+ visual mockups into fully pixel-perfect UI layouts backed by strict system-wide global typography and theme tokens.
- Conducted comprehensive endpoint data mapping using Postman, resolving 15+ latent payload synchronization bottlenecks.

Web Developer June 2024
Cloudily Scripts *Patna, India*
- Spearheaded a reusable Vue.js component architecture system, shrinking subsequent feature development design-to-code times by 30%.

Projects

Personal Portfolio (GitHub | Live) | *Next.js, Tailwind, Framer Motion* 2025
- Responsive Next.js + React frontend (Framer Motion, Tailwind); performance optimizations (dynamic imports, lazy loading) — Lighthouse Perf 92
- Built 40+ reusable components (Atomic Design); global state with Redux Toolkit

Crypto Tracker (GitHub | Live) | *React, Vite, Redux Toolkit, Recharts, Axios, Tailwind CSS* 2024
- Built a real-time cryptocurrency price dashboard integrating Axios to fetch live asset endpoints across 100+ digital currencies.
- Implemented persistent global state trees via Redux Toolkit to cache favorite coin tokens locally, maintaining client state memory.
- Configured data visualization lines with Recharts, rendering zero-lag historical price charts across multiple viewports.

Education

Banaras Hindu University Varanasi, India
Master of Computer Applications (MCA) – Computer Science *Dec 2021 – Jul 2023*

Anugrah Narayan (A.N.) College Patna, India
Bachelor of Computer Applications (BCA) – Computer Science *Sep 2017 – Dec 2020*

College of Commerce, Arts & Science (COCAS) Patna, India
Intermediate (Class XII) *Apr 2015 – Jun 2017*

St. Xavier's High School Patna, India
Matriculation (Class X) *Feb 2014 – Mar 2015*
