Experience

Associate Software Developer Feb 2026 – May 2026
Tetr College of Business *Jalandhar, India*

- Developed responsive web interfaces from complex Figma wireframes using Astro and Tailwind CSS, achieving 100% layout precision across 15+ micro-pages.
- Built 10+ reusable UI components with Framer Motion and Swiper.js, and optimized cross-browser compatibility and responsive breakpoints with UI/UX teams.

Frontend Developer Intern Aug 2025 – Oct 2025
BI Hub Solution *Delhi, India*

- Engineered 8 scalable React.js modules from Swagger API specs and integrated 20+ REST APIs, managing asynchronous state and form validation.
- Participated in bi-weekly Agile sprints with cross-functional engineers, accelerating project delivery by 15%.

Software Developer Intern Sep 2024 – Dec 2024
Cling Multi Solutions *Pune, India*

- Shipped core views for a commercial real-estate platform using Next.js App Router, improving page load times by 20%.
- Converted 15+ mockups into pixel-perfect UIs with theme tokens; mapped endpoints in Postman, resolving 15+ payload sync issues.

Projects

Spendwise (Live) | *Next.js, React, Redux Toolkit, Tailwind CSS, Motion* 2026

- Built a responsive shopping-list app (Next.js, Tailwind CSS) to plan spend, compare retailer prices, and track purchase progress.
- Managed application state with Redux Toolkit, added Motion and Lenis animations, and configured Next.js metadata and crawl files to support SEO.

System Canvas (Live) | *React 19, Vite, Redux Toolkit, Tailwind CSS v4, React Router* 2026

- Built a React 19 and Redux Toolkit design-token workspace to edit Light/Dark semantic colors with live previews and viewport simulation.
- Implemented WCAG contrast checks and validated JSON import/export; generated CSS-variable and Tailwind v4 theme output.

ClassFuse (Live) | *Next.js, Tailwind CSS v4, tailwind-merge, Motion* 2026

- Developed a Next.js Tailwind formatter with Prettier plugin ordering and optional duplicate/conflict cleanup via tailwind-merge.
- Implemented a Next.js API route parsing class and className attributes, plus a responsive, animated UI with copy-to-clipboard.
